

Aeterna Is Now on Android — Free to Download

Your voice. Your stories. Your legacy — now in your pocket.

Some Stories Are Too Important to Forget

Memories fade. Voices go quiet. The stories that shaped your family — the lessons, the laughter, the quiet moments of wisdom — slowly slip away.

Aeterna was built so they never have to.

What Is Aeterna?

A Digital Legacy Platform Powered by AI

Aeterna turns your life stories, voice, and memories into a private, interactive family archive. Answer one question a week. Aeterna does the rest.

- AI-guided voice interviews
- Searchable, interactive archive
- Built for generations to explore

Now Fully Native on Android

The Aeterna Android app is here — built natively for your phone. Record voice stories, browse your archive, and share your legacy with family, all from the palm of your hand.

How It Works — 3 Simple Steps

Answer One Question

Record a 5-minute voice note answering a thoughtful weekly prompt. That's all it takes.

Aeterna Organizes Everything

Stories are transcribed, analyzed, and secured in your private vault with AES-256 encryption.

Your Family Talks to Your Legacy

Loved ones ask questions in natural language and hear answers in your own voice — forever.

Features That Make Your Legacy Live On

AI Life Interviews

A caring AI guides you through your personal history at your own pace, from childhood to today.

Voice Cloning

Your archive speaks in your own words and tone, even decades from now.

Digital Twin

An AI version of you that family can have real conversations with, drawing from your real stories.

Animated Memories

AI brings your old photos to life as moving portraits your family will treasure.

Bank-Grade Security

AES-256 encryption at rest and in transit. Your data is never sold or shared.

Free Forever — Start Today
